

Tina,

February 15, 2018

This is a very quick note to explain the included disks.

I have responded to each question and sub-question in parallel to the original questionnaire I received from the U.S. EPA concerning Ansonia.

This file is titled "Questionnaire Responses". Also included are 23 individual files that contain information relevant to the particular question.

If there are any questions about the responses or files, please contact me. I apologize for the brevity and informality of this note, but I am rushing to get to the Post Office so that you may receive my answers in a timely fashion.

Regards,

A handwritten signature in black ink, appearing to read "Ray McGee", with a stylized flourish at the end.

Ray McGee
